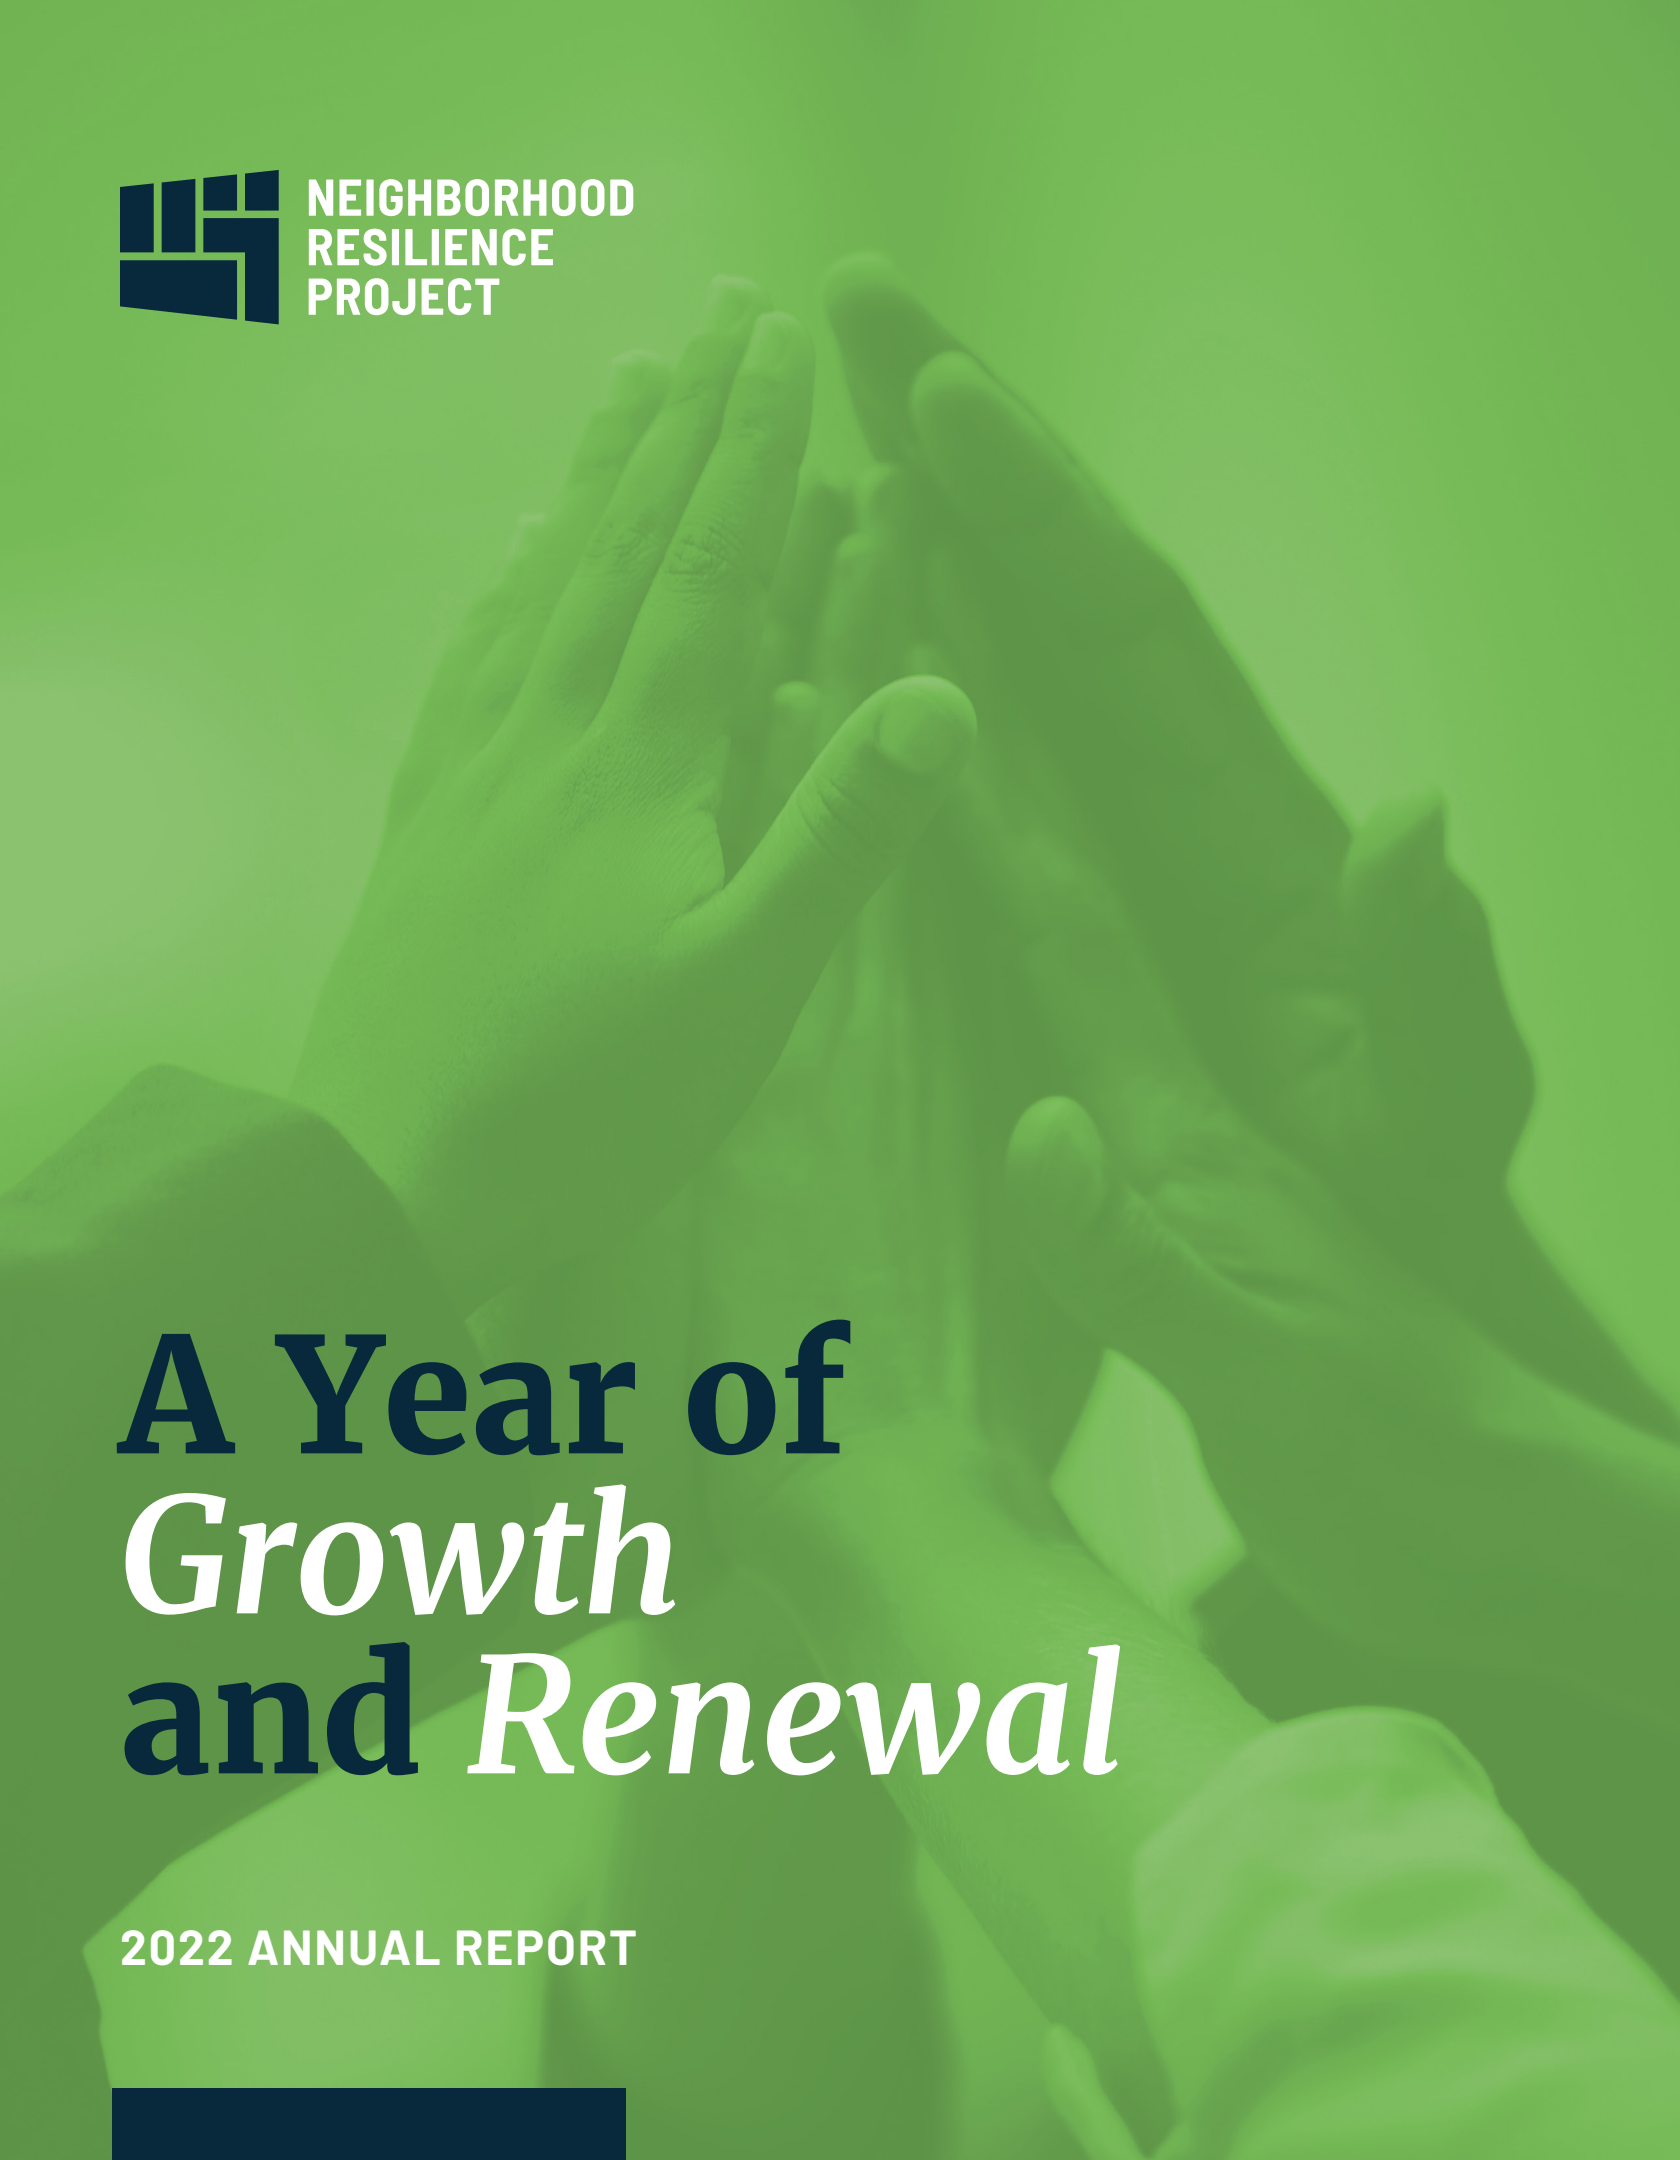
NEIGHBORHOOD RESILIENCE PROJECT



A Year of *Growth* and *Renewal*

2022 ANNUAL REPORT

Letter from the CEO

A year of growth and renewal

Hope can be elusive. Without hope we acquiesce to particular forms of slavery which debilitate the flower of our community and undermine progress. Worse yet, hopelessness in some neighborhoods can be so widespread that many don't even understand that they are suffering from the incapacitating bondage to despair. Without hope, the potential for beauty, health and love become impossibilities, and people wallow in the darkness of loneliness. When confronting this overwhelming reality some may ask the question, "How might one break the bonds of hopelessness?"

As I reflect on the Neighborhood Resilience Project over the past year, there is much to thank God for. I realize that among the many heartfelt blessings to be lifted up is the undeniable recognition that, by God's grace, a foundation of hope has been firmly established by which many are breaking the bonds of despair. In our ministry, I have seen mothers who have lost their sons to gun violence become healing vessels for other mothers who share the same loss. I remember one man who, recognizing that he might have an opportunity to serve his people by joining with us, said to me, "I spent my whole life tearing down this community. Now I want to build it up." I have even had the privilege of sharing with some who have labored with us for years that their neighborhood is no longer on the County's list of most violent communities.

All of this compels me to say that it is not enough to simply read the yearly statistics of the Neighborhood Resilience Project's annual growth and impact as a matter of historical record. Certainly there is much to be celebrated in the thousands of lives that were impacted across our region, and yet we mustn't stop there. For in the wake of this impact lies the emergence of hope which has now unlocked new and extraordinary possibilities in the lives of thousands more.

These possibilities are not just limited to our region. Over the past year, we have continued to strengthen our relationships across the nation, reaffirming our commitment to support others in the work of Trauma Informed Community Development in their own communities. We have continued to train, coach and convene groups from across the country in an effort to support the proliferation of this life saving and transformational work in trauma affected communities around the country. From my conversations with those engaged in this work, I can only say that this hope is spreading.

With God's help, we have done this together. Just as thousands have been impacted by this work, thousands more have made all of this possible by support of every imaginable kind. Although I can never adequately thank them for what they have offered, I rejoice in the knowledge that what they have done for others will be an eternal jewel that no one can ever steal from them.

I am humbled by the privilege of serving our beloved suffering ones with this extraordinary organization, and I thank all of those who have and will offer prayers, love, partnership, and support in most extraordinary and sacrificial ways. In sowing the seeds of hope, together we can usher in an era of new found freedom in which we, together will all of our suffering brothers and sisters, are liberated once and for all from the tyranny of despair.

With hope, love and gratitude,

Rev. Paul T. Abernathy, CEO

2022 Impact - 18,000+ people served

The organization has 61 students across 4 schools who are enrolled in the Trauma Informed Peer to Peer Leadership Program of the organization.

The Community Health Deputies provided health education and/or referrals to more than 16,000 people and supported distribution of 1,000+ vaccines.

500+ community members were provided with Christmas gifts.

The Free Health Center realized 244 patient visits across 94 patients and completed the renovation.

The Neighborhood Resilience Project trained 17 people from the communities of McKeesport, Clairton, Duquesne in the Trauma Informed Community Development Framework in order to support the implementation in their own communities.

The Distribution Center provided more than 200,000 food items, hosted therapeutic groups for more than 1,500 attendees and distributed more than $36,000 in Emergency Relief.

The Micro-Community Intervention Team completed their 6th Block Intervention and saw an increase of well-being by 4% as gauged by the assessment tool imHealthy.

The Trauma Response Team deployed 70 times and provided psychological first aid to 1,362 people. The organization also now has two Trauma Response Vehicles.

FHC Patient Testimonials:

"The Free Health Center helps me in so many different ways. I couldn't breathe and had anxiety and depression and Dr. Rocco helped me stabilize all of that and now I'm off the anxiety and depression medication and am normal again. I'm not only feeling much better but I don't have the symptoms. Also spiritually, the doctors here helped me by talking to me and reassuring me that God is God. I got spiritual empowerment as well as medical care."

– Jennifer

"My experience coming to the Neighborhood Resilience Project is never a bad one. They are so mannerable and caring people. They speak to you with respect. They are respectful and inviting people. If you have any problem and need someone to talk with, they are there to listen and give you advice and they look out for you at all times."

– Myralin

From the Community

Community Health Deputy Testimonial

"My name is Sharae Blair and YES I got my Covid-19 shot at the Neighborhood Resilience Project. After receiving my Covid-19 vaccination, I didn't have any side effects. I was actually hesitant about getting the shot. It took months and months of conversations with my Grandmother (Mamau) Donna Saddler (Community Health Deputy). Watching and experiencing first Mamau's dedication and concerns for our community, put into perspective the gravity and seriousness of this disease. Mamau's influence and education helped my fears and may have saved my life and all those I come in contact with. Her slogan 'SHOTS IN ARMS' has become an enjoyable sound throughout our home. I would like to thank the Neighborhood Resilience Project and Mamau for making me feel comfortable about taking the shot and for helping me receive the proper care."

Micro-Community Intervention Testimonial

"When I first engaged in the [Neighborhood Resilience Project's] Mon Valley TICD Institute held September 12-16, 2022, at Penn State McKeesport (Greater Allegheny), I was not quite sure what to expect. I had just finished my Master's in Social Work and felt I knew everything I needed about social justice, community organizing, and mobilization. Luckily, I was pleasantly surprised. I experienced a crash course in Trauma Informed Community Development, Behavioral Health Community Organizing (BHCO), and a crash course in humility.

I met some of the most wonderful and like-minded people in our area. People who are passionate, empathetic, and devoted to the mission of dignity and social justice for underserved and underrepresented populations. I was able to take what I have learned and implement it at my job, working with homeless recovering addicts, and my community volunteer work.

There were key points that I feel must be emphasized. I learned that after mobilization, there must be stabilization. In addition, the people are the greatest resource. I gained the verification that I am following a call. Coretta Scott-King once said, 'Service is our rent for our space on this planet.' This experience was like receiving a subsidy to pay that rent. "

– Keenon Mikell

Our Mission

Rooted in the Gospel and teaching of the Orthodox Church, inspired by the Civil Rights Movement (American 1950s-1960s), the mission of the Neighborhood Resilience Project is to support the transformation of neighborhoods from Trauma Affected Communities to Resilient Healing and Healthy Communities through Trauma Informed Community Development.

Our Vision

To inspire a movement in which suffering people are raised up from the ashes of trauma in unconditional love to become empowered healers, community builders, and positive change makers.
